📍 Lahore, Pakistan

ABOUT ME

Front-End Developer with 3+ years of experience delivering scalable, robust, and high-performance web applications. Specialized in React.js, Next.js, TypeScript, Redux Toolkit, Tailwind CSS, and Bootstrap. Experienced in delivering complex dashboards, admin panels, e-commerce platforms, and real-time applications. Also skilled in full-stack development using Node.js, Express.js, MongoDB, REST APIs, secure authentication systems, and WebSockets.

EDUCATION

Virtual University of Pakistan Feb 2020 - May 2024
Bachelor's in Computer Science

PROFESSIONAL EXPERIENCE

Frontend Engineer (React.js / Next.js), YODO Designs Dec 2023 - Nov 2025

- Built complex React.js / Next.js applications featuring multi-role access systems, dynamic dashboards, and real-time user interactions across medical, sales, and service platforms.
- Developed advanced UI systems with data visualization, AI chatbot integration, and workflow automation to streamline operations and decision-making.
- Engineered scalable frontend architecture with secure authentication flows, reusable components, and fully responsive, production-grade interfaces.

MERN Stack Engineer (React.js focus), Reown Logics Dec 2025 - Present

- Contributed to the development of **NAHJ ERP**, an enterprise resource planning system designed to integrate business processes such as project management, finance, and team collaboration into a single platform for efficient organizational operations

PROJECTS

- **Top Senior Spot:** Engineered a healthcare platform featuring AI-powered assistance, geolocation-based provider discovery, payment processing, and role-based access management.
- **PIF Perfect:** Developed a multi-role sales management system with dynamic permission controls, analytics dashboards, and business intelligence reporting. (<https://pifperfect.com>)
- **Detail Xpert:** Built a scalable service management platform with hierarchical user roles, workflow automation, real-time notifications, and performance tracking.
- **ESA Helper:** Developed a workflow automation platform that streamlined document processing, receipt management, and one-click submission workflows through an intuitive and scalable user experience. (<https://esahelper.com>)
